How Anty Drudge Keeps Cool.

Mrs. Heatup—"Gracious, Anty, you look cool as a cucumber, and here am I dripping with perspiration. And I know you started your wash the same time I did." Anty Drudge-"Quite true, but I wash my clothes with Fels-Naptha soap. If you used Fels-Naptha, your clothes would be washed in half the time. Besides, I didn't have to do any back-breaking rubbing over a

steaming wash. I used Fels-Naptha soap the

More white things are worn in the summer-lawns, flannels, muslins and so forth. That means more washing. Likewise more hard work—unless Fels-Naptha soap is used.

Fels-Napths way. Why don't you?"

Fels-Naptha simplifies summer washing and does it more satisfactorily. No hot fire is needed. That means a good deal when the thermometer is 90 in the shade.

Fels-Naptha does the washing thoroughly in cold or lukewarm water. Cold or lukewarm water saves the clothes. Boiling and hot water weaken clothes so they tear easily.

Fels-Naptha will not harm the most delicate fabric. Neither will it injure lightcolored things which could not be washed safely with other soaps or in hot water.

The advantage of using Fels-Naptha soap is the Fels-Naptha way of washing.

Don't cook your clothes. Use Fels-Naptha. It does the work better in cold or lukewarm water.

Follow directions on the red and green wrapper.
